

# KCE-8800

Colour Dome Camera

# KCE-8800

The KCE-8800 is equipped with a 2.9mm fixed lens and a 1/3" SONY Super HAD II CCD image sensor which can provide a long life, excellent picture quality, high functionality and high reliability

The KCE-8800 camera is easy to install and can be placed in spots where multiple angles are required to be recorded. The rotating function that this 3 axis camera provides means you can install the camera either on a wall or on a ceiling. This camera is suitable for places such as restaurants, exhibition halls and houses.
